REQUIREMENTS

conoscenza della lingua Inglese - Fluency in English

COURSE AIMS

The course aims to acquire the main knowledge of the processes of performance measurement and performance management, considering the impact on productivity and on the professional quality of public service provision.

Particular attention is paid to the tools and managerial models applied to public services.

Expected results according to Dublin descriptors:

Knowledge and understanding:

- Identify mission, goals, objectives and type of measures in a public organization. Acquisition of the planning and control instruments in order to present and therefore interpret the observations relating to the economic, business and social phenomena inherent to the management in the public sector.

Ability to applying-knowledge and understanding,

- Ability to read and evaluate performance measures and uses of performance measurement.

Making judgments.

- Ability to evaluate results resulting from the analysis of planning and management of organizations in the public sector.

Communication skills.

- Ability to clearly present the results of the analyzes carried out and the activity of data transfer and subsequent decisions towards human resources operating at executive level.

Learning skills

Learning ability of the various phases for the realization of a performance measurement system. Uses of performance measures for decision making processes.

TEACHING METHODOLOGY

Conventional, lectures and exercises

ASSESSMENT TYPE

Written exam at the end of the cycle of lectures.

For attending students intermediate tests can be scheduled including a written exam and an oral presentation of a project work.

The examination aims to ascertain the degree of knowledge of the student on both practical and theoretical aspects of the discipline. In particular, the objective is to assess the degree of assimilation of the contents of the discipline, the ability to make the appropriate links between the various topics dealt with, the ability to express the required arguments in a clear and exhaustive manner, to apply knowledge, autonomy of judgment, communication skills and learning skills in line with Dublin descriptors.

"The student disabled and/or with SDL (specific disorders of learning), who intends to take advantage of an individualized intervention for the conduct of the exam must contact the Disability Integration office of the University of Salento at the address:
