

Dr. Carmine Negro

ORCID: <https://orcid.org/0000-0001-6981-2216>

Agricultural Expert Diploma at ITAS "G. Presta" Lecce, 1992
M.D. in Biological Science at the University of Lecce in 1998,
Ph.D. in Biology and Biotechnology at University of Salento in 2008.

Graduate technical assistant at the University of Salento since September 2000, Department of Biological and Environmental Sciences and Technologies (DiSTeBA).

Actually in charge of the operational technical management of the DiSTeBA's Plant Physiology and Plant Pathology Laboratories, supporting research activities through sampling and analytical determinations through HPLC / MS / TOF and GC / MS.

In addition other duties are: a) supervision of the correct performance of activities by users in compliance with the laboratory operating regulations and safety procedures; b) the routine maintenance of the instrumentation and relative calibration; c) the development of appropriate technical / operational methods to achieve the objectives of the various research projects.

I also follow an independent research on plant secondary metabolites focused on the characterization of plant matrices and in particular on polyphenolic compounds, terpenoids and alkaloids and their biological activity.

He has participated in numerous research projects concerning alternative energy, plant biomass, qualitative / functional evaluation of plant foods, plant biodiversity, cultivation of crops with hydroponic techniques. He is also an expert in the taxonomic recognition and identification of plant species of agricultural interest, sampling and collection of plant material.

Over the years he has acquired specific knowledge on electrophoretic and chromatographic techniques (HPLC / MS / TOF and GC / MS), ELISA techniques and *in vitro* testing of the biological activities of phytochemicals and on the management of growth chambers for plant organisms.

He carries out reviews for prestigious international journals such as Antioxidants, Food, Plants and other international journals.

Author of over 50 scientific publications (below a list of publications from the last 5 years) in national and international peer-reviewed journals.
