EUROPEAN HERITAGE, DIGITAL MEDIA AND THE INFORMATION
( - Università degli Studi)

Insegnamento GIS APPLICATIONS IN CLASSICAL ARCHAEOLOGY

GenCod A004651

Insegnamento GIS APPLICATIONS IN CLASSICAL ARCHAEOLOGY
Insegnamento in inglese GIS APPLICATIONS IN CLASSICAL ARCHAEOLOGY
Settore disciplinare L-ANT/07
Corso di studi di riferimento EUROPEAN HERITAGE, DIGITAL MEDIA
Tipo corso di studi Laurea Magistrale

BREVE DESCRIZIONE DEL CORSO
The course aims to provide the theoretical and methodological background for skilful use of Geographic Information Systems (GIS) in historical research contexts with a focus on archaeological applications.

PREREQUISITI
Familiarity with computers (at least at ECDL level)

OBIETTIVI FORMATIVI
The lectures and the exercises in front of a computer will provide students with a general overview of GIS technology. Students will be able to:
- Utilize the core components and functionality of a GIS
- Employ a variety of geospatial data types, data sources and metadata management techniques

METODI DIDATTICI
The course will consist of lectures and practical tasks to be held in laboratory

MODALITA' D'ESAME
a. Oral exam
The examination aims at assessing:
- Knowledge and understanding of the contents of the course
- Practical abilities

APPELLI D’ESAME
21 Maggio 2019
14 Giugno 2019
12 Luglio 2019

Unisalento.it
The course aims to provide the theoretical and methodological background for skilful use of Geographic Information Systems (GIS) in historical research contexts with a focus on archaeological applications.

This course will serve as an introduction to GIS technology and its applications to archaeological data management and analysis. Students will learn how to compile, transform, analyze and present sources of archaeological and historical data, and will utilize this information in GIS for cultural resources interpretation and management. References to selected research studies in Classical Archeology will be provided.
