

DIGITAL HUMANITIES (LM70)

(Università degli Studi)

Teaching GIS APPLICATIONS IN CLASSICAL ARCHAEOLOGY

GenCod A004651

Owner professor Grazia SEMERARO

Teaching in italian GIS APPLICATIONS IN CLASSICAL ARCHAEOLOGY

Teaching GIS APPLICATIONS IN CLASSICAL ARCHAEOLOGY

SSD code L-ANT/07

Course year 1

Language INGLESE

Curriculum COMUNE/GENERICO

Reference course DIGITAL HUMANITIES

Course type Laurea Magistrale

Location

Credits 6.0

Semester Secondo-Semestre

Teaching hours Ore-Attivita-frontale: 42.0

Exam type Orale

For enrolled in 2022/2023

Assessment Voto-Finale

Taught in 2022/2023

Course timetable

<https://easyroom.unisalento.it/Orario>

BRIEF COURSE DESCRIPTION

The course aims to provide the theoretical and methodological background for skilful use of Geographic Information Systems (GIS) in historical research contexts with a focus on archaeological applications.

REQUIREMENTS

Familiarity with computers (at least at ECDL level)

COURSE AIMS

The lectures and the exercises in front of a computer will provide students with a general overview of GIS technology . Students will be able to:

- Utilize the core components and functionality of a GIS
- Employ a variety of geospatial data types, data sources and metadata management techniques
- Create, manipulate, query and analyze geospatial data

TEACHING METHODOLOGY

The course will consist of lectures and practical tasks to be held in laboratory

ASSESSMENT TYPE

Following the new provisions to avoid coronavirus infection, it will be possible to take the spring session exams only in online mode (see for guidelines *unisalento.it website*).The following indications concern the traditional methods, which I hope will be able to resume as soon as possible.

a. Oral exam

The examination aims at assessing:

- Knowledge and understanding of the contents of the course
- Practical abilities

ASSESSMENT SESSIONS

26.1. 2023
16.2. 2023
2.3. 2023
6.4. 2023
18.5. 2023
15.6.2023
29.6. 2023
20.7. 2023
14.9. 2023
26.10.2023

FULL SYLLABUS

The course aims to provide the theoretical and methodological background for skilful use of Geographic Information Systems (GIS) in historical research contexts with a focus on archaeological applications.

This course will serve as an introduction to GIS technology and its applications to archaeological data management and analysis. Students will learn how to compile, transform, analyze and present sources of archaeological and historical data, and will utilize this information in GIS for cultural resources interpretation and management. References to selected research studies in Classical Archeology will be provided.
