During the course, attention will be focused: 1) on the structures of the Italian language (phonetics, morpho-syntax, lexicon-semantics); b) on short conversations on topics concerning every day situations of life and italian culture. We will focus on oral expression (speaking), writing, oral comprehension (listening), and reading. The aims are: a) to make students learn basic grammar italian structures; b) to make students able to use the grammar rules in speech, in real communication.

Knowledge of the structures of a language

1. Knowledge and understanding: the student will have to acquire knowledge on the structures of the Italian language and on the use of different varieties in real situations.
2. Ability to apply knowledge and understanding: the student will be able to use the knowledge acquired in relation to the different contexts, in everyday communication.
3. Making judgments: the student will be able to evaluate independently the choices to be made.
4. Communication skills: the student will be able to communicate in different everyday life situations.
5. Learning skills: the student will develop skills that will allow him to reuse the knowledge acquired in other study courses.

Laboratory activities

Conversation on the topics discussed during the course
